

Be Joyful—and Careful—This Holiday Season

With all we tend to tackle during the holidays, getting things done can sometimes take priority over doing things cautiously. Your Independent Agent and Kemper would like to share some ideas on how to take care, protect your property and still enjoy the festivities in the busy weeks ahead.

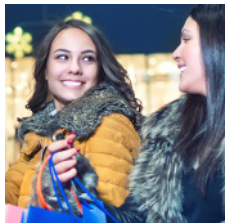

Hosting with Care

Whether you're hosting a small gathering for family or a big holiday bash, add safety to your shopping list; toss it in when you stir, steam or sauté; and as you set the scene to sparkle.

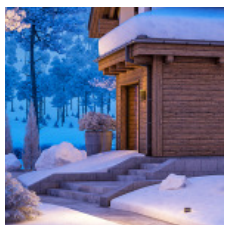

Don't Re-gift Your Identity for the Holidays

The holiday season is bonus season for identity thieves. Which means some vigilance can pay off for you by keeping your personal information secure.

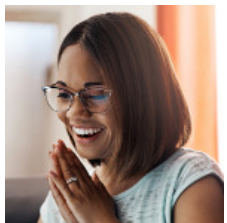

Parking Lot Precautions

Not only do parking lots carry risk for accidents, but also crime. With more people shopping this time of year, some extra precaution can help ensure neither happens to you.
